A-3000 SERIES

A-3000 SERIES air press allows the user height adjustment of the cylinder in 1.875" increments. This press is ideal for assembly, punching, shearing, and staking of metal or plastic. Upon special request, the column height can be increased by adding a riser block between the base and the column. The A-3000 series pneumatic press comes equipped with a T-Slot base, dual hand anti-tie-down/anti-repeat controls and a three-inch stroke length. An adjustable down stop/anti-rotate mechanism comes standard.
