

Janesville Tool & Manufacturing, Inc.

AP-810-AH-T SERIES

AP-810-AH-T-2(SL) is rated to withstand 1,000 lbs. of force. This precision manual press is ideal for small parts assembly, punching, bending, shearing or staking of light gauge stock. The head can be adjusted for height with (2) clamping screws. The press comes standard with an adjustable gib for continual accuracy. Upon special request, the column length can be increased for more throat clearance.
