

Janesville Tool & Manufacturing, Inc.

810-RR SERIES

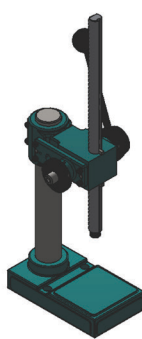

AP-810-RR Adjustable Lever Press is rated to withstand 1000 lbs. of force. This precision assembly press is ideal for small parts assembly, pressing, punching, shearing, crimping and staking. The head of the press can be adjusted for height with two (2) clamping screws. The press contains a 3/4" diameter keyed ram that is 14-3/4" long, which will enable the user to utilize a longer column for longer strokes.
