

Janesville Tool & Manufacturing, Inc.

810 SERIES

AP-810 Adjustable Lever Press is rated to withstand 1000 lbs. of force. This precision assembly press is ideal for small parts assembly, punching, shearing, and staking of light-gauge stock, metal or plastic. The head can be adjusted for height with two (2) clamping screws. The press contains a 3/4" square ground ram and an adjustable gib for continual accuracy.
