

The A-6000 series air press is ideal for circuit board assembly work as well as precision assembly work, staking, shearing, and for punching of light gauge metal or plastic. This precision assembly press consists of a ground steel base and separate ductile iron column. The clearance under the column can be increased by adding a riser block between the steel base and the column flange on special request. The A-6000 series pneumatic press comes equipped with dual hand anti-tie down/anti repeat controls and a 3" inch stroke length. An optional adjustable down stop/anti rotate mechanism is available.

Options:

- Air Filter/Regulator (Model 512)
- Tool Adapters
- Die Sets (See Page 16)
- Alternate Stroke Lengths
- Arrange Press For Die Set Mtg.
Add suffix (-A)
- Riser Blocks
- Quick Exhaust Valves (Model 523)
- Delay Timer (Model T-10A)
- Dual Photo Optic Palm Buttons
Add Suffix (-OT)
- Air Over Oil
Add Suffix (-A/O)

Model	CYL. DIA.	Force at 60 PSI	Force at 80 PSI	Force at 100 PSI
A-6024	1.75"	144	192	240
*A-6019	1.75"	114	152	190

*Includes adjustable down stop/anti-rotate mechanism.
